Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The claimed combination of the prosthetic comprising a graft having hems on its ends and a cord disposed within the graft, that is adapted to expand upon absorbing fluid is considered patentable. The art of record provides for a graft with hems and stents, but they fail to disclose a cord that expands upon exposure to fluids. It is not deemed obvious to one of ordinary skill in the art to combine the art of record with a fluid expanding cord.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
